Jesus People High On Religion

By RICHARD LEMMON
Newsweek Features

IN NEW ORLEANS, a large crowd of young people, many of them Jesus People, gathered for a religious service. The crowd was estimated to be one of the largest ever seen in the city. The service was held in a large, open area, and the young people were singing and praying. The atmosphere was one of intense religious fervor.

THEY RAVE, of course, about the religious life. It is a new religion, a new way of life. It is a religion that is based on the teachings of Jesus Christ. It is a religion that is based on love, peace, and harmony. It is a religion that is based on the belief that God is with us, and that we are all children of God.

They interpret the Bible literally, witness for Jesus at every opportunity, live in communes and talk about 'freedom out with Jesus.'

Prison Cell No Bar To Hoffa's Top Bid

By VICTOR REBEL

WASHINGTON—This is not some little Chicago scribble of news. It is a big story. It is a story that has the potential to change the course of American history. It is a story about a man who has been in prison for years, but who is now being considered for a top position in the government. The man's name is James Earl Ray, and he is the man who is known for his role in the assassination of Dr. Martin Luther King Jr.

NO DISCOVERY made in the past few years of the life of James Earl Ray. He was a man who was born in Mississippi, and he was a man who was known for his criminal activities. He was a man who was known for his role in the assassination of Dr. Martin Luther King Jr.

The Senate is finally getting around to ratification of the Hall-Gerson-Peterson chemical and biological warfare. That agreement was signed, of course, at the end of World War II. It was a treaty that was supposed to prevent the use of chemical and biological warfare. But it was a treaty that was never fully enforced. And now, it is being brought up for ratification again.

Only enough, we should sign the Protocol in order to protect our own security. It is not only a treaty that was signed at the end of World War II, but it is a treaty that was signed by the United States. It is a treaty that was signed by the United States, and it is a treaty that was signed by the United States.

Cutty Sark.
The only one of its kind.

The clipper Cutty Sark's century-old reputation is honored by the Scotch whisky that took her name. For generations, Cutty Sark has blended only Scotland's best whiskies to create the exceptional Cutty Sark taste... and the character only Cutty Sark can offer. Cutty Sark. It stands alone. You'll know why.
